

Adoptium

Project Management Committee

Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2023-August-02

Agenda:

- Approval of [minutes](#) from July 19th meeting.
- Approval of [statement](#) from July 26th meeting.
- Review of [GitHub issues flagged for PMC agenda](#).
- July PSU Temurin 20.0.2, 17.0.8, 11.0.20, 8u382.
 - Release champion: Stewart Addison/Scott Fryer
 - Release checklist ([adoptium/adoptium#238](#))
 - Platform status ([adoptium/adoptium#239](#))
- Website home page refactoring
- AoB

Action items:

Date	Description	Status
2023-06-21	ACTION: sxa to ask EF to send notice to end contract with Nine.	In progress
2023-07-12	ACTION: sxa to ask EF to set up Slack-Matrix bridge	In progress
2023-07-19	ACTION: George to check the EF stance on using AI generated code (ChatGPT/CoPilot)	Open

Attendees:

- ☒ George Adams

- ☒ Stewart Addison
- ☐ Carmen Delgado (guest)
- ☒ Tim Ellison
- ☐ Severin Gehwolf
- ☒ Shelley Lambert
- ☒ Andrew Leonard
- ☒ San Hong Li
- ☒ John Oliver
- ☐ Martijn Verburg
- ☒ Lan Xia

Meeting called to order at 14:02 BST

Minutes:

- Approval of [minutes](#) from July 19th meeting.
 - Minutes of the meeting were approved.
 - Question about whether the Slack bridge is working.
- Approval of [statement](#) from July 26th meeting.
 - Statement was approved.
- Review of [GitHub issues flagged for PMC agenda](#).
 - Add support for custom CA certificates #392
 - i. The implementation appears to be sound and comes with tests.
 - ii. Allows end users to optionally import their certificates into the container images at runtime.
 - iii. Has some technical overhead for ongoing maintenance, and solves a problem identified compared to the OpenJDK image.
 - iv. Plan to update the July CPU with this new feature with the understanding that this could be backed out if problems are seen.
 - v. Should this be rolled out on a limited set of versions first? Ask for updates at Docker on JDK20 then all other versions.
 - vi. DECISION: Go ahead with this plan - merge PR now with phased push to Docker starting with JDK20.
- July PSU Temurin 20.0.2, 17.0.8, 11.0.20, 8u382.
 - Release champion: Stewart Addison/Scott Fryer
 - Release checklist ([adoptium/adoptium#238](#))
 - Platform status ([adoptium/adoptium#239](#))
 - AIX remains broken - 8u has a path forward and later versions have bug in Harfbuzz preventing release, and JDK20 has no workable Loom implementation.
 - Awaiting a good release from Harfbuzz, which would then go into OpenJDK head before backporting. Could be a long delay to getting back to a working set of code.
 - Other platform builds are completed and installers are well underway.

- Homebrew believed to be complete.
 - Installers for 8 & 20 are completed and 11 & 17 have delays.
 - Further opportunities for improvement in the process for getting installers ready and available. Will be handled via retrospective.
- Website home page refactoring
 - The Adoptium working group have approved the spend of up to €10k for redesign of homepage, current releases, and post-download page with implementation of the CSS.
 - These are the most used pages on the website based on analytics.
 - All are welcome to engage in the redesign.
- AoB
 - Informational discussion about Michael Winsor (EF employee) role as he engages with the project.
 - PMC asked to welcome Pushkar (WG member rep.) as they see him explore opportunities in the project too.
 - Stewart and George are meeting with MacStadium today to discuss machine requirements. Will report back to PMC at the next meeting.

Meeting closed at 14:38 BST
